

Notes on request for confirmations and factory plates for MAN trucks

MAN Nutzfahrzeuge AG, Dept.TDB, Dachauer Str. 667, D-80995 Munich
Tel.: +49 (0)89 1580 -3369, -3610, -5558, -5557, -3371 Fax: +49 (0)89 1580-4264
E-mail: ESC@man.eu

Important: The applicant must sign in person!

Due to the billing procedure, it is not possible for a different person/company to request this on their behalf. The applicant is the invoice addressee as well as the recipient of the confirmation, and must be one and the same person.

Re 1.) Applicant details

- Please complete fully and legibly.
- MAN Debtor Number:
Please quote if provided.
MAN subsidiaries in Germany must quote their cost centre instead of their debtor number. If you do not have a debtor number, MAN Nutzfahrzeuge AG will automatically assign you a new number when you place your first order.

Re 2.) Vehicle data

- Please always attach a currently valid copy of the official vehicle documents (in Germany the Fahrzeugschein [log book] or Part I of the Zulassungsbescheinigung [registration document] or the Fahrzeugbrief [vehicle title] or confirmation of data from Part II of the Zulassungsbescheinigung [registration document]).

Re 3.) Desired confirmation

- Tick the desired form of confirmation and fill in all sections.
- For applied loads and total combination weights, always quote numerical values.
- When towing a trailer, always quote the trailer load in the form of a numerical value, as well as the type of trailer and the type of trailer coupling to be used.
- Whenever tyres on the vehicle are to be changed, quote the desired tyre size on each axle, even if these details are not being altered.

Re 4.) Factory plate

- Factory plates are produced in two languages: German and English.
- If an additional plate is required for Arabic-speaking countries or for PR China, please quote separately.
- A plate with modified loads is only possible in conjunction with an appropriate confirmation.
- The factory plate ordered is sent straight to the address indicated as soon as it leaves production.

Miscellaneous:

Please avoid the use of terms such as "Maximum" or "Max."

Owing to the fact that different maximum loads may arise as a result of different technical stages, we would ask you in such cases to contact us beforehand to prevent misunderstandings and unnecessary costs from arising.

If conversions on the vehicle need to be taken into account, please also note these down in the blank box below "Other confirmation" (e.g. "with conversions", "with change to tyres", "without change to tyres").

The applicant is responsible for the quality of information provided. If these details are incorrect or incomplete, incorrect assumptions may in some cases be made when producing the manufacturer's confirmation.

Every ordered document and / or factory plate is billed. The current and valid price list (doc. P1.1) can be found on the internet at www.manted.de.
